

What Our Clients Are Saying

“We are truly impressed with your comprehensive knowledge of the home remodeling business.”

I don't think I ever really thanked you but I do appreciate the great job you did on my kitchen. You turned my ideas into a kitchen I am really proud of. I was nervous taking on a large project by myself. Thanks for making it so easy.

After all the estimates I received, you were not the cheapest, however I was most impressed with the way you took the time to explain the various options with me, and you seemed very honest.

Thanks again Steve! We still love our new deck and loved seeing it pictured on your coupons in the Val-Pak.

Chris and I are writing to let you know how thrilled we are with the second story addition you added to our home. Although we met with several contractors, we choose Autumn because of your knowledge, expertise and reasonable fees. You guided us through every step of the process – from choosing a design to putting the final touches on each room. We are truly impressed with your comprehensive knowledge of the home remodeling business.

We must also comment the two carpenters who worked on the project. They worked long and hard hours in all weather conditions. The pride they took in their workmanship is a quality not often seen these days. Every time we look at their work we are grateful that they went the extra mile for us. Even our neighbors commented on what wonderful work the carpenters did.
